CISCO-4608

REMARKS*Status of the Application:*

Claims 1-24 are the claims of record of the application. Claims 5, 9-12, 17 and 21-24 have been allowed. Claims 1, 2, 6-8, 13, 14 and 18-20 have been rejected and claims 3, 4, 15 and 16 have been objected to and would be allowable if written in independent form.

Amendment to the Title

As requested by the examiner, Applicants have amended the title to "WIRELESS COMPUTER NETWORK INCLUDING A MOBILE APPLIANCE CONTAINING A SINGLE CHIP TRANSCEIVER" be descriptive. See, e.g., claim 3. The change of title is not meant to limit the scope of the invention, which shall be limited by the claims, and equivalents thereof.

Amendment to the Claims:

Applicants have amended the claims to cancel all rejected claims, and to amend those claims that were objected to as being dependent on rejected claims. The amendments to the objected-to claims have placed such claims in independent form, and has included all limitations of the base claim and any intervening claim.

The remaining claims are either allowed, or have been amended to a form that the examiner has indicated places them in a condition for allowance. Allowance of the claims is therefore requested.

Conclusion

The remaining claims are allowed or allowable. Action to that end is respectfully requested.

If the Examiner has any questions or comments that would advance the prosecution and allowance of this application, an email message to the undersigned at dov@inventek.com, or a telephone call to the undersigned at +1-510-547-3378 is requested.

Respectfully Submitted,

Dec. 20, 2004
